GEORG VIHOS

"In the past 40 years, my reputation has been modeled from my approach to draw on mural size, seamless paper. The truth highlights the familiar and predictable underlying nature of things for all artists. My work has reached proportions that stagger even my own imagination." GEORG A. VIHOS

Georg A.Vihos's long and distinguished career developed from his rich Greek ethnic sources. It reflects a deep and mystical childhood along with a natural disposition to focus and make art, discovering untapped nourishment in his work, ever learning to become a more skillful artist, and making his art materialize with artistic depth. Vihos passionately establishes his professionalism and craft inevitable playing out the fine work he produces today.

Vihos's extensive and worldly traveling experiences include a prestigious US Fulbright-Hays Fellowship stay in Italy as well as many visits to other cultural meccas of the world afforded by Louis Comfort Tiffany prize money. These awards credit the high quality of his work and clearly shape his artistic nature. Vihos developed studios in Florence Italy, Athens Greece, Paris France, New York City, San Francisco, Chicago, and now in Hamtramck, Michigan.

Vihos's work is exceptionally represented and admired in great collections worldwide. Over the years, Vihos' art has evolved, exploring new approaches and ideas. Vihos notes the dilemma every artist confronts again and again; that is when to stick with familiar tools and materials, and when to reach out and embrace those which offer new possibilities.
